

## CONSENT FORM FOR BOTOX, DYSPORT, XEOMIN & JEUVEAU

Please initial each section to indicate that you understand each topic. Do not initial if you desire more information.

### Proposed Treatment

Injection of a very small amount of Dysport/ Botox®/ Xeomin / Jeuveau cosmetic, a purified protein derivative, into a specific muscle. The result is weakness or relaxation of the muscle and improvement of the lines or wrinkles that the muscle action has formed.

### Anticipated Benefit

Response is usually seen 3-10 days after the injection. Typically, the muscle action (and wrinkles) will return in 3-5 months. At this point, a repeat treatment will relax the muscle and soften the lines again.

I understand that several sessions may be needed to complete the injection series. I understand that there is a separate charge for any subsequent treatment. Typically, an evaluation (and touch up) is scheduled 2 weeks after the initial appointment.

### Risks and Complications

Possible side effects include: transient headache, swelling, bruising, pain during injection, twitching, itching, numbness, asymmetry (unevenness), temporary dropping of the eyelids or eyebrows. These side effects are rare, but have been reported. In a very small number of individuals, the injection does not work as satisfactorily or for as long as usual. Known significant risks have been disclosed, yet the theoretical risk of unknown complications does exist.

Bruising may occur after Dysport/Botox®/ Xeomin / Jeuveau injections. Substances that increase the risk of bruising include herbal medications, Vitamin E, aspirin, Motrin, Coumadin, other nonsteroidal anti-inflammatory drugs and blood thinners. I understand that if I have taken any of the above within the past 7 days, I have an increased risk of bruising. I understand that if I am taking a blood thinning medication, this treatment may result in significant bruising and may not be recommended. Initials: \_\_\_\_\_

I attest that I have provided my physician with a list of all my current medications and supplements.

I understand that there may be a higher possibility of side effects if I do not follow certain instructions. I will adhere to these instructions for at least 4 hours from the time of treatment. These include:

- I will not lie down or bend forward for extended periods of time for at least 4 hours from the time of treatment.
- I will not manipulate or massage the treated area for at least 4 hours after the treatment.

### Pregnancy & Neurological Disease

I understand that there are certain conditions where Dysport/Botox®/Xeomin / Jeuveau treatments are not recommended.

These include:

- Neurological diseases, such as myasthenia gravis, Eaton-Lambert syndrome, Lou Gehrig's disease

## Pregnancy or Breastfeeding

None of the above conditions apply to me.

## Limitations and Alternatives

Dysport/Botox®/Xeomin / Jeuveau is best at treating dynamic facial lines, those caused by facial muscle activity; lines present at rest may or may not improve. A treatment may be effective for variable lengths of time with subsequent treatments, may not work as well or for as long as expected, or may not work at all. I have been informed of other alternatives which exist for the treatment of wrinkles such as topical creams, chemical peels, laser treatments, surgical removal of the frown muscles, forehead/brow lift, facelift, collagen or hyaluronic acid treatments.

## Cost/Fees

Payment for this cosmetic procedure is my responsibility. I understand that there will be an additional fee for touch ups.

Because Dysport/Botox®/Xeomin / Jeuveau therapy for wrinkles is considered a cosmetic procedure, insurance does not pay for treatment.
